FIRENZE 1929

A 100% Italian story with a 20-year warranty on the chrome plating

Our story began 90 years ago. It was September 1929, in fact, when Arnolfo Bertocci founded the company. Today, as then, our reality is made up of territoriality, craftsmanship and originality all MADE IN ITALY; still today, as then, we invest in research, design, innovation and functionality while safeguarding competence craftsmanship and production optimization, favoring very high quality standards by placing at the first place the satisfaction of all our customers.

USE OF EXISTING DRILLING

All the accessories from Settecento, Cinquecento, Scacco and Easy collection are supplied with dowels screws for wall mounting and their length can be adapted to use the existing holes on the wall. Perfect solution to replace your old towel holder. Simple, easy and fast mounting. Gluing kit optional.

LEGEND OF MATERIALS AND SUMMARY OF THE TECHNICAL ASPECTS

METALLIC MATERIALS (IN ALL COLLECTIONS)

Bertocci Industrie srl through the BERTOCCI brand produces complements and accessories aimed at furnishing the bathroom using only the highest quality raw materials such as BRASS and/or, for hidden fastening systems, bolts and small components, AISI 316 stainless steel and AISI 316 stainless steel SUPER MIRROR. These materials are COMPLETELY PURCHASED through ITALIAN drawing mills in possession BS OHSAS 18001 certification regarding the health and safety of its employees as well as certification UNI EN ISO 14001 regarding environmental guarantees.

NON METALLIC MATERIALS - NEOLITECK® (COLLECTION: POLO-GOCCIA-700-FLY-300-OFFICINA 02)

Neoliteck® is a new generation material created specifically by Bertocci Industrie srl and composed mainly from Titanium and Bauxite particles, all with a very low percentage of styrene. Thanks to its mass can also be cleaned daily using abrasive creams and/or scotch brite sponges with a neutral color. All Neoliteck® products are both easy to clean and simple to restore in case of superficial scratches and/or any wear resulting from time and daily use. Its surface remains unchanged in time ensuring both excellent surface resistance and keeping unaltered its aesthetic value. The scratches on the colored parts can be restored but unfortunately, the surface on which it is abraded could appear slightly shinier. Neoliteck® is not afraid of superficial scratches but rather cuts in depth which are very difficult to restore (possibly in the company).

NON METALLIC MATERIALS - MARBLE (CARRARINO COLLECTION)

All natural materials, not synthetic agglomerates
100% marble - Carrara Marble with certificate of origin
100% marble - Marquinia Marble

NON METALLIC MATERIALS - BAMBOO (GUCCIO COLLECTION)

100% natural and non-synthetic bamboo root. Its unique characteristics of lightness, flexibility and robustness make bamboo an excellent plant to be transformed into fine details.

NON METALLIC MATERIALS - GLOSSY OR MAT CERAMIC (COLLECTION: CENTO-DUECENTO-ONLINE-SCACCO)

The pluses of ceramics are infinite, such as its resistance over time. Our complements are also dishwasher safe at any temperature thanks to the enamel that completely closes the cells surface through cooking (not the MAT/SATIN version).

NON METALLIC MATERIALS - 24% LEAD CRYSTAL (COLLECTION: GRIMILDE-ES)

All our crystals complements are made up with 24% lead crystal, the most valuable material on the market. The content of lead oxide (minimum) in the percentage of 24% allows the crystal to differentiate itself from ordinary glass: thanks to this percentage, the crystal is brighter as it approaches the optical properties of the diamond and it is 60% brighter than ordinary glass.

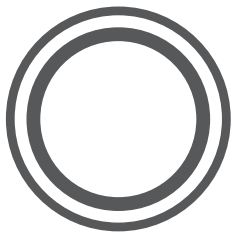

NON-METALLIC MATERIALS - INNER PARTS IN ANTI-MOLD ABS

All the technical interiors inserted inside the toilet brushes and / or toothbrush cups are removable for easy cleaning. The above mentioned articles are made with a special anti-mold formula. They are dishwasher safe. It is recommended after disinfecting or washing the bottles to dry them using cloths or air before storing them. Storing them wet could result in loss of quality.

NON-METALLIC MATERIALS - BRUSHES FOR WC

Our toilet brushes are in a special ABS blend and have a silver filigree inside them; for this reason their appearance remains unaltered for much longer. On request, available also in black.

“The circle, a basic, ethereal and harmonic shape which has represented and will still represent eternity, not having beginning nor end.”

(Bruno Munari)

This pricelist is born as sales' tool for our customers. Contemporary and elegant collections, with measured and reassuring character. Created to offer the most suitable use for every need. "To furnish" the bathroom with character and quality

COMPLEMENTS

Solid surface Matt White:

NEOLITECK: It is a new generation material composed mainly of Titanium and coagulated Bauxite and polyester resins. Thanks to its aspect of polished stone and to its extraordinary strength and compactness, it looks like an innovative material pleasing to the eye and to the touch.

! On request products also available to measure.

Multi-use WC-stand in chromed brass. The stem with roll holder can be positioned as desired by the end user. Suitable for any type of bathroom due to the small size of the base.

The texture is on the upper part of the stem and on the handle of the toilet brush.

INSTRUCTIONS FOR MODULAR ASSEMBLY

- First install any inside corners and outside edge brackets (items **2304**).
Drill holes at 23.5 cm. from the wall edge for corresponding brackets (items **2301**).
Walls must be at a perfect right edge.
- Outside brackets do not require attachment measuring because they can be adjusted at will. Inside brackets, however, must be placed exactly at the end of the bars. Ceramic items always require two brackets.
- These two brackets, however, do not have to be both wall mounted. See for example the assembly for **2517- 2518** at page 115/116, where the middle brackets are screwed to the main bar.
- The ceramic elements have to be installed using the support **Art.2301**
- While the reversible, right-left, toilet bars (**2310-2311**) with an end tip are multi-functional, the bars without end tips (**2313-2314** etc.) should not be used to hold toilet paper rolls.
- The reversible, right-left, descending bar (**2303**) has a range of 30 cm.
- There is a 1,5 cm. difference in width between the ceramic items on page 69/70 and those on page 78. This was done to accommodate the side wings (7,5 mm each and facilitate the assembly)

SIMPLICITY AND CUSTOMIZATION

A simple and dynamic system. Choose the size of the towel holder and combine it with the shelf in Neolitech, which can be used both as a countertop shelf and as a shelf on the towel holder itself.

TOWEL HOLDER

The towel holder can hold 2 towels.
Dimensions are 55x44x30 cm.

SHELF

The shelves lay directly on the wall supports. Each item, even the toilet paper holder, can be fitted with its own shelf.

COMPLEMENTS

Solid surface Matt White:

NEOLITECK: It is a new generation material composed mainly of Titanium and coagulated Bauxite and polyester resins. Thanks to its aspect of polished stone and to its extraordinary strength and compactness, it looks like an innovative material pleasing to the eye and to the touch.

GENERAL CONDITIONS OF SALE

ACCEPTANCE TERMS

All the sales of Bertocci Industrie srl are carried out according to the conditions of sale indicated below, and the delivery of each order implies the full acceptance of the same sale conditions.

VALIDITY OF THE CURRENT PRICELIST

This price list No. 569/2021 cancels and/or replaces all previous ones.

PRICES

The prices indicated in the following price list are for goods delivered ex our Sambuca Val di Pesa factory, VAT excluded and are included the Conai Environmental Contribution.

PAYMENT TERMS

Upon the occurrence of a non-payment, within the established terms, deliveries will be immediately suspended without notice. All orders in progress will be blocked until payment is received, therefore delivery dates may vary. It is also true that the company, upon receipt of an insolvent, can cancel the credit granted to the buyer and require the advance payment for all pending and ready-to-install orders. Failure to comply with the payment terms may result in the re-examination of the credit lines and the commercial conditions granted. No dispute will entitle the buyer to suspend or delay payment. In the event that a non-payment occurs, the company Bertocci Industrie srl (in addition to the above) will automatically charge default interest at the legal rate and an amount equal to Euro 20.00 for overheads.

In the event that the return delay exceeds 45 days, Bertocci Industrie srl will transfer the credit to its collection company without notice.

SHIPPING AND TRANSPORT

The order can be performed by the manufacturer also with multiple shipments (subject to specific agreements with the buyer). The goods travel under insurance coverage. If, at the time of delivery, there are defects on the packaging or on the material, it is absolutely necessary to affix the reserve on the courier's DDT and promptly notify Bertocci Industrie srl. All reports must arrive at the Company not later than 5 days from receipt of damaged goods. Beyond this time the company is not held responsible, therefore, credit and / or substitutions of any kind will be excluded.

COMPLAINTS

We do not accept claims for faults and / or defects on the finished product after 10 days from the arrival of the goods. The company does not accept returns of goods unless previously authorized. For all authorized returns due to errors and / or defects of the product, the transposal will be charged to the manufacturer while for all other authorized returns but not dependent on Bertocci Industrie srl the transport and packaging will be at the buyer's expense, with a lump sum charge of € 15.00 for general expenses.

THE COMPANY RESERVES THE RIGHT, AT ANY TIME, TO MODIFY THE TECHNICAL, CONSTRUCTIVE AND / OR AESTHETIC CHARACTERISTICS OF THE PRODUCTS UP TO SUSPEND THE PRODUCTION AND THE SALE.

DELIVERIES

The dates of departure and / or delivery of goods are purely indicative and not binding under any circumstances for Bertocci Industrie srl. The aforementioned dates may undergo variations due to multiple factors, including production factors that are independent of our will. Nothing can therefore be attributed to Bertocci Industrie srl for delays in deliveries originally indicated.

PACKING ORDERS AND TRANSPORT COSTS

The minimum order is € 125.00 (VAT not included). For smaller orders, Bertocci Industrie srl may request advance payment. Port Franco for orders over Euro 800.00 (VAT excluded). For orders up to or equal to € 300.00 (excluding VAT) the transport with the invoice will be equal to € 20.00; for orders between € 300.00 and € 800.00 the transport with invoice will be equal to € 18.00.

For all orders of less than € 125.00, the company will insert the item "flat-rate packaging costs" for € 10.00; for all other amounts the packaging is included in the price. All EURO PALLET and / or FUMIGATED pallets must be considered to be returned. Failure to return will result in a request of Euro 25.00 each.

For all packaging in wooden crate, the cost is Euro 50.00 each one (only at the request of the buyer).

GUARANTEES

All Bertocci products enjoy various guarantees.

Warranty Chrome Finishing 20 years. Guarantee Special finishes 15 years. **

Warranty Painted Finish 5 years. **

Warranty Assembly: lifetime. **

Guarantees on products in Neoliteck 24 months.

Guarantee on mechanisms and adhesives (for example, dispenser pumps) 12 months for holders of VAT and 24 for non-holders.

To make use of the guarantee, simply present the receipt or invoice to the retailer to whom the purchase was made. The latter will forward the request to Bertocci Industrie srl, attaching the images to the explanation of the problem. Bertocci Industrie srl reserves the right to recognize the defect in the replacement of the entire article or only of the interested component.

** read the maintenance advice carefully

MAINTENANCE TIPS

The warranty on galvanic surface finishes is only valid if you follow the recommendations of Bertocci Industrie in the instructions for use. In particular, it is necessary to clean the chromed parts using only water (if possible distilled) and a non-abrasive cloth, without ever resorting to any kind of soap and / or chemical solvent. To remove any limestone formations it is sufficient to dilute a tablespoon of kitchen vinegar in a glass of water.

The warranty on surface finishes treated with epoxy paints is only valid according to the recommendations given by Bertocci Industrie on assembly instructions. In particular, it is necessary to provide for cleaning with a cloth moistened only with cold water. Never use solvents and / or commercial products which could ruin the colour tone after a short time and corrode the surface.

The warranty on assembly is valid only following the assembly instructions without changing the tightening of the accessory components.

During use, the parts may wear out following the movement of the components. If this happens, immediately contact the retailer or directly with the company which will indicate the operation to be carried out directly on the item or will repair the company.

For all those external components such as: wall fixing systems, adhesives and / or resins Bertocci Industrie srl the legal guarantee is one year for users of VAT and two years for all the others.

ALL TESTS OF SEALING ON THE SURFACES ARE MADE ON WALLS IN CEMENT. THE COMPANY SUPPLIES ITS ITEMS WITH FIXING SYSTEMS SUITABLE TO THE TIGHTNESS AND TO FIXING ON WALLS ABOVE.

If the purchaser intends to glue the accessories through the fixing kit, the warranty is valid only following the instructions and the various expedients requested by our supplier. We do not guarantee the seal on the not reported in the sales list No. 568.

DISPUTES

For any dispute the sole competent forum is that of FLORENCE.

ETHICAL AND MORAL CODE

Our company with 90 years of history and production has always distinguished itself for a high professional ethics and for the high quality standards of production.

We have always worked with the "diligence of the good father of a family", for us a real behavioral and obligation criterion towards our customers and all those people who have given us confidence by choosing our production to furnish the own home intimacy.

Therefore every customer and every order is received with respect, attention and respect. Our company has already qualified second generation staff and each of us wants every day to satisfy, through our work, the needs and demands of our customers with absolute devotion both for the product and for the customer.

Therefore, the conditions described in this chapter serve as guidelines for the right relationship between manufacturer and buyer, but the company Bertocci is ready from time to time to evaluate any modification or improvement proposal to meet the needs of its customers.

Thank you for trusting us.
